## SUMMARY

Email and CRM developer with 8+ years building and deploying lifecycle email, automations, and onsite experiences for multiple DTC and B2B brands. The technical partner who turns marketing strategy into accurate, tested, on-time execution.

## EXPERIENCE

*Meison,* ***CRM Developer | Email Developer | Front End Developer***
*May 2018 - Sep 2026*
• Grew from supporting two DTC brands to five (Misook, Ming Wang, Jones New York, Masai Copenhagen, Kasper), plus Fortes Health and B2B email programs

• Built, segmented, A/B tested, and scheduled campaigns and lifecycle automations, sending 1–3 emails per DTC brand daily to audiences from 200 to 120K, and up to 40–50 emails in a single week

• Planned BFCM sending strategy with marketing and creative, then built, tested, and scheduled up to 4 emails per day per brand at peak

• Implemented Klaviyo and integrated it with Shopify, Google Ads, and Meta

• Protected sender reputation and inbox placement through list hygiene, sunset suppression, and ongoing deliverability monitoring

• Built landing pages, popup and embedded signup forms, and onsite experiences with Dynamic Yield, Nosto, and Justuno, using JavaScript for Dynamic Yield customization and a reusable HTML, CSS, and JavaScript promo experience deployed across brands and promotions

*Freelance,* ***Email Developer, Contract***
• Built and scheduled email campaigns to targeted audiences for BeautyHive and SoChatti

• Developed emails for Sola Salon and built a web experience for an in-person event

*Loxa Beauty,* ***Front End Developer | Email Developer***
*Aug 2016 - Sep 2017*
• Coded and deployed email campaigns and triggered automations in Salesforce Marketing Cloud using HTML, CSS, AMPScript, and SQL data extensions and queries

## EDUCATION

*General Assembly*
